

Lactation Counseling

If you're expecting a baby or have recently given birth, it's important you have the best possible care for you and your new addition. Health New England is here to support you on your journey into parenthood, offering breastfeeding support services for free when you visit participating providers at healthnewengland.org/provider-search or call member services at **(800) 310-2835**.

Here is a list of participating providers for lactation counseling that are covered in Health New England's network.
